OUR MISSION

The mission of Global Growers is to increase the number of food producers who create access to healthy, sustainably-grown food and also to prepare farmers to be competitive in their local marketplace.

WHAT WE DO

Global Growers connects families to **LAND, EDUCATION, and MARKETS** in order to build healthier communities and to strengthen our local economy.

WHO WE SERVE

Global Growers prioritizes serving individuals who came to Georgia as refugees/immigrants and who were experienced food producers in their countries of origin. Consequently, we have a primary focus on racial and ethnic groups who are underserved and underrepresented in our communities. We also serve all commercial farmers in Metro-Atlanta and the state of Georgia who have proven production experience and have limited resources for, or face significant barriers to, food production or launching farm businesses.

HOW GG CAN HELP YOUR BUSINESS

Global Growers will work to enhance your brand in a meaningful way by helping you stand out for supporting our unique mission. Global Growers is a respected player in the local agriculture community, as well as in Atlanta's refugee community, and we stand out as the only organization that works at this intersection of refugees, food, and agriculture.
